SUMMARY

Experienced in Ruby on Rails and JavaScript-based programming with a background in Dental Assisting which has provided me with strong skills in problem-solving, decision-making, organization, listening, and working under pressure. Can quickly learn and master new technologies; successful working in both teams and self-directed settings.

TECHNICAL SKILLS

Skills include Ruby, Rails, Javascript, ReactJs, CSS, HTML

TECHNICAL PROJECTS

Jack's Journey - Frontend | Backend | Demo
An interactive educational site where users learn more about plastic pollution and the effects it has on the ocean.
- Built by using a ReactJS library, and a Rails-API backend using Postgres database.
- Implemented vanilla CSS for design

Picology - Frontend | Backend | Demo
Picology is an e-commerce site where users can navigate through a gallery ranging from nature, aerial, and city photography and can choose to buy any of the photography listed and checkout to have it mailed to their homes.
- Developed using a ReactJS library and a Rails-API backend using Postgres database.
- Applied vanilla CSS for design

Omega Sound - Frontend | Backend | Demo
Omega Sound is designed to let users search and listen to any songs they would like.
- Created by using Vanilla Javascript and Rails-API backend
- Employed the Spotify API for music
- Design created with vanilla CSS
